

Exception

```
graph BT; A["pip._internal.network.lazy_wheel.HTTPRangeRequestUnsupported"] --> B[Exception];
```

The diagram illustrates an inheritance relationship. At the bottom is a gray rectangular box containing the text `pip._internal.network.lazy_wheel.HTTPRangeRequestUnsupported`. A blue arrow points vertically upwards from the center of this box to a white rectangular box at the top containing the text `Exception`. This indicates that `HTTPRangeRequestUnsupported` is a subclass of `Exception`.

`pip._internal.network.lazy
_wheel.HTTPRangeRequestUnsupported`
