

networkx.utils.heaps.MinHeap

```
graph BT; BinaryHeap[networkx.utils.heaps.BinaryHeap] --> MinHeap[networkx.utils.heaps.MinHeap]; PairingHeap[networkx.utils.heaps.PairingHeap] --> MinHeap
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'networkx.utils.heaps.MinHeap'. Below it are two boxes: 'networkx.utils.heaps.BinaryHeap' on the left and 'networkx.utils.heaps.PairingHeap' on the right. Blue arrows point from each of the bottom boxes up to the top box, indicating that both BinaryHeap and PairingHeap inherit from MinHeap.
